Mechanical Size at scale	5"	12"
Overall Mechanical size with Bleed	5.5"	12.5"

Art Guidelines

Set up print files at 1' = 1/2" scale at 300ppi. We can work with any standard art file such as jpeg, ai, eps, pdf, tiff, as long as it is scaled properly. Be sure to include 6" of bleed on each side (0.25" in the art file for wrapping around the structure. All critical elements should be at least 0.25" from the edge of the Live area.

Printing and Finishing Instructions

Finish with 3" bleed and 3" pockets on all sides. This results in an overall size 1' larger in height and width than the live area as shown above.
